

Dear Parents and children,

Every day, for lack of engagement in positive involvements, more and more children are getting involved in graffiti, gangs, drugs and other such negative activities. We are lucky to live in the community of Reseda, where numerous positive, wholesome activities are available to our children. The problem, though, is that it has not been easy for parents, or children, to know about all of these great options

As the Youth Advocacy Committee of the Reseda Neighborhood Council, we have compiled this Reseda Program Directory for you, the parents and children of our community. We encourage parents to meet the leaders of these programs and also speak with parents whose children have participated in them. Getting involved in, and getting your children involved in, positive activities at the start of the school year will make a difference in your lives and our community.

Together let us start the new school year right.

For the Kids,

The RNC Youth Advocacy Committee
